Software Developer – C++

EasternGraphics – Your Future Employer

Throughout Europe, our pCon brand has been a daily part of our customers' businesses for over 20 years. Even across European borders, companies recognize the strength of pCon solutions in the fields of product configuration, room planning and architectural services.

With reputable companies, international partners and subsidiaries, things at EasternGraphics never get boring. Our employees are the heart of the company and we work hard to support them through a healthy work-life balance and attractive health programs.

We are looking to immediately fill the position of **Software Developer focusing C++** at our headquarters in Ilmenau (Thuringia) – in the green heart of Germany!

What tasks await you?

As part of a motivated team, you will be involved in the development of our innovative planning-software: pCon.planner.

The following daily activities await you:

- Implementation and integration of innovative technologies, e.g. in the fields of: 3D, CAD, rendering, multimedia
- Technological enhancement of our leading planning software for our customers of industry and trade

We are happy to discuss further details during a personal interview.

What skills should you bring?

For this exciting activity, we expect the following:

- Experience and very good knowledge in software development with an object-oriented programming language, preferably C++
- Independent, careful and systematic way of working
- Excellent analytic thinking
- Interest in computer graphics
- Advanced language knowledge in German and English would be desirable

What are we offering?

- Comfortable work environment with good work-life-balance
- Flexible work hours
- Flat organization with friendly team

Interested?

Please don't hesitate to e-mail us your completed application. For further questions, we are also available by phone. We look forward to receiving your application and meeting you!
