EGR-OnlinePlanner – Tailored Solutions

The EasternGraphics Online Planner is a smart, straightforward tool for online interior design, which can be individually configured. According to your personal needs we will integrate the EGR-OnlinePlanner into your website and adapt it to your corporate design.

We include all relevant information and take care of the localization as well as the configuration of the planning scenarios. We connect our software to your online shop or merchandise management and determine storage and distribution of the planning. The planning details can be displayed as an article list or a printout.

We will be pleased to **advise** you! We arrange a suitable compilation and inform you of the individual costs.

You get an overview of all possible configurations of the EGR-OnlinePlanner in the following table.

Important Details

Integration of the corporate logo	The company logo can be customized and displayed at the upper corner of the user interface if desired. The integration of a link is also possible.
Info icon to the EGR-OnlinePlanner	EasternGraphics links an information site to the EGR-OnlinePlanner. The redirection to an alternative website is optional.

Design of the User Interface

Color scheme	Adjust the EGR-OnlinePlanner to your corporate identity. The following can be changed: background colors, room selection, icon, subtitle of the icon, default floor surface.
--------------	--

Language Settings

Default language	Set the language which is used at the start of the EGR-OnlinePlanner.
Selectable languages	Provide a selection of other languages to your users. Currently the following languages are available: Danish, German, English, French, Italian, Dutch, Romanian and Spanish.

Planning Possibilities

Scalable articles	You decide, if the articles inside of a planning shall be scalable.
Color selection	Define the color range for room elements, walls, floors and columns.
Material selection	EasternGraphics provides high-quality materials for the room elements of a planning. Your own material library can alternatively be incorporated.
Planning area	In addition to working with closed rooms the planning without walls is also possible.
2D-View/3D-View	The EGR-OnlinePlanner can be integrated as a pure 2D tool or supplemented by a 3D mode to get an interactive view of the planning results.
Configuration	Due to the optional connection to the pCon.configurator Online you get various configuration possibilities for articles.

Integration of the EGR-OnlinePlanner into Your Distribution Processes

Integration into a shop system	The EGR-OnlinePlanner can be integrated into your shop system or inventory management system. We gladly advise you on the possibilities.
--------------------------------	---

Release of an Article List

Settings for the article list	Define which information should be included in the article list. The following can be displayed if desired: short text, long text, variant text, value added tax and other standard information.
Prices	It is possible to integrate the quotation into the article list.
Value added tax	You can also edit the value added tax.
Export of the article list	The article list can be exported as an XML file. Simply select this function.

Printout

Logo for the printing	The logo can be used in high resolution for printing.
Contact details	The following can be included into the print view: contact addresses, tips for the planning and manufacturer's notes.

Storage and Distribution of Planning

Custom scripts	The integration of user scripts is possible to enable for example the display of user forms when saving a planning.
Storage location	A memory path for the planning can be defined on the server, where the EGR-Online Planner is running.
Configuration of the Automatic saving by email (storage email)	The sender's address and the subject of the storage email are configurable.
Transfer to pCon.planner	When selected, the planning will be exported to pCon.planner for further processing.
