

Product Documentation (2018-08-17)

System requirements: pCon.creator

Minimum requirements for pCon.creator 2.15

| | |
|-----------------------|---|
| Processor: | x86 or x86-64 Pentium IV (class 2 GHz) or equivalent AMD processor |
| System memory: | 2 GB |
| Operating system: | Microsoft Windows 7 SP1 |
| Available disc space: | 1 GB |
| Graphics board: | For graphical data creation, the graphic board requirements of the used CAD-System and pCon.planner should be taken into account. |
| Screen resolution: | 1280 x 1024 pixels |
| Microsoft Office | Microsoft Office 2010 Professional SP2 (Access) 32bit |
| CAD-System | Autodesk® AutoCAD® 2010 or pCon.planner PRO 7.6 |
| USB-Port | |

Notes

The system requirements which are described above represent an example of a minimal supported system environment. Generally, the following versions of required components are supported.

Please note that these components may have got their own individual system requirements.

Supported operating systems

Microsoft Windows 10

Microsoft Windows 8

Microsoft Windows 7 SP1

Supported Microsoft Office versions^{1,2,3}

Microsoft Office 2016 Professional (Access) 32bit

Microsoft Office 2013 Professional SP1 (Access) 32bit

Microsoft Office 2010 Professional SP2 (Access) 32bit

Notes

The Microsoft Office Desktop versions – mentioned above – from the Microsoft Office 365 subscriptions are supported, too⁴.

It has to be considered that different components from different Microsoft Office versions should not be installed in parallel⁵.

¹ Microsoft Office 64bit is not supported. The 32bit version should be used on 64bit operating systems.

² The Microsoft Access Runtime version is not supported.

³ Using several functions of pCon.creator, the installation of Microsoft Excel is required, too. Microsoft Excel and Access from the same Office Suite Version should be installed.

⁴ Using pCon.creator, a locally installed Microsoft Office Access Desktop version is necessary. For this reasons, Office 365 subscription plans, which include only web or mobile Office Apps, are not supported.

⁵ Internal problems or conflicts of internal parts of office components can occur when installing different Microsoft Office components in parallel. A result of such Office internal problems may be that pCon.creator does not start. Especially installing Office from an Office 365 subscription already installed Office versions e.g. pre-installed test versions should be removed first.

Supported CAD systems⁶

pCon.planner PRO 7.7

pCon.planner PRO 7.6

Autodesk® AutoCAD® 2019 64bit

Autodesk® AutoCAD® 2018 64bit

Autodesk® AutoCAD® 2017 32bit / 64bit

Autodesk® AutoCAD® 2016 32bit / 64bit⁷

Autodesk® AutoCAD® 2015 32bit / 64bit

Autodesk® AutoCAD® 2014 32bit / 64bit

Autodesk® AutoCAD® 2013 32bit / 64bit

Autodesk® AutoCAD® 2012 32bit / 64bit

Autodesk® AutoCAD® 2011 32bit / 64bit

Autodesk® AutoCAD® 2010 32bit / 64bit

⁶ Since 32bit versions of the Autodesk® AutoCAD® software are not supported on 64bit operating systems.

⁷ Using the Autodesk® AutoCAD® 2016 software to import 3d geometries it should be taken into account that this version will frequently crash if the compatibility modes is activated in ODB product line management dialog. In this case the compatibility mode should not be used.
